

# HTTP/2

## **HTTP/2 enables multiplexing**

- ➡ send multiple HTTP responses for a given request (a.k.a push)
  - Proposed by Google (called SPDY)
  - Adopted as an standard in 2015 (RFC 7540)
  - HTTP/2 is compatible with HTTP/1 (same protocol)

# HTTP 1.1

---

# HTTP 2.0
